Hello! I'm John, 28, a Web and Code Developer from Athens, Greece. I have studied Computer Engineering in the university of Patras and have completed my military obligations.

My areas of expertise are website developing, general programming and private or public tutoring. I firmly believe in personal growing either through personal research or via attending live seminars.

Moreover, I support volunteering, having already taken part in communities and events such as Code Club Greece and Patras IQ.

It will be a pleasure to work with you!
